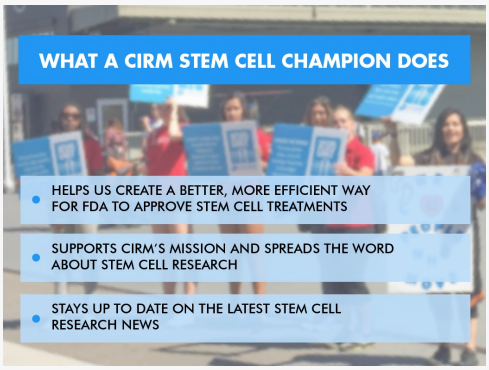
CIRM Stem Cell Champions

We Need Your Help!

Our mission is to accelerate stem cell treatments to patients with unmet medical needs. Help us turn our mission into reality: **WATCH** the video below to learn how you can be a Stem Cell Champion. Then type in your information to sign up!



Funding Isn't Enough!

CIRM was created to fund the most promising stem cell research. But funding alone can't speed the advancement of stem cell treatments into the clinic. The Food and Drug Administration's (FDA) regulatory process is impeding the approval of stem cell therapies and delaying the time it takes for them to reach patients, many of whom have little time left to wait.

We are asking patients, patient advocates, and the general public to join us in our efforts to bring approved stem cell treatments to patients faster. We all have a role to play in winning this fight. That's why we are asking you to join us and sign up to be a **CIRM Stem Cell Champion**.

Sign up to be a CIRM Stem Cell Champion
