| 1 | Amend 17 Cal. Code of Regs. section 100080 to read: | |
|----|---|----------------------------|
| 2 | § 100080. Acceptable Research Materials. | |
| 3 | All covered stem cell lines used in CIRM-funded research must be "acceptably derived." | |
| 4 | (a) To be "acceptably derived," the covered stem cell line must meet one of the | |
| 5 | following three criteria: | |
| 6 | (1) The covered stem cell line is recognized by an authorized authority. To be recognized | |
| 7 | by an authorized authority the stem cell line must: | |
| 8 | (A) Be approved by the National Institutes of Health; or | |
| 9 | (B) Be deposited in the United Kingdom Stem Cell Bank; or | |
| 10 | (C) Be derived by, or approved for use by, a licensee of the United Kingdom | |
| 11 | Human Fertilization and Embryology Authority; or | |
| 12 | (D) Be derived in accordance with the Canadian Institutes of Health Research | |
| 13 | Guidelines for Human Pluripotent Stem Cell Research under an application approved by | |
| 14 | the National Stem Cell Oversight Committee; or | |
| 15 | (E) Be derived in accordance with the Japanese Guidelines for Derivation and | |
| 16 | Utilization of Human Embryonic Stem Cells; or | |
| 17 | (F) Be derived under license of the Australian National Health and Medical | |
| 18 | Research Council; or | |
| 19 | (G) Be derived in accordance with California Code of Regulations, title 17, | CIRM User 3/28/11 10:39 AM |
| 20 | section 100090. | Deleted: F |
| 21 | (2) The covered stem cell line is derived under the following conditions: | |
| | 08/15/11 1 100080 ICOC Final Approval | |

| 1 | (A) Donors of human gametes, embryos, somatic cells or tissue gave voluntary |
|----|--|
| 2 | and informed consent; and |
| 3 | (B) Donors of human gametes or embryos did not receive valuable consideration. |
| 4 | For embryos originally created using in vitro fertilization for reproductive purposes and |
| 5 | are no longer needed for this purpose, "valuable consideration" does not include |
| 6 | payments to original gamete donors in excess of "permissible expenses." Original gamete |
| 7 | donors may receive reimbursement for permissible expenses as defined in California |
| 8 | Code of Regulations, title 17, section 100020, subdivision (h); and |
| 9 | (C) Donation of human gametes, embryos, somatic cells or tissue was overseen by |
| 10 | an IRB (or, in the case of foreign sources, an IRB-equivalent); and |
| 11 | (D) Individuals who consented to donate stored human gametes, embryos, |
| 12 | somatic cells or tissue were not reimbursed for the cost of storage prior to donation. |
| 13 | (3) The covered stem cell line is derived from non-identifiable human somatic cells |
| 14 | under the following conditions: |
| 15 | (A) The derivation did not result from the transfer of a somatic cell nucleus into a |
| 16 | human oocyte (SCNT) or the creation or use of a human embryo; and |
| 17 | (B) The somatic cells have no associated codes or links maintained by anyone that |
| 18 | would identify to the investigator(s) the donor of the specimens, or, if such codes or links |
| 19 | exist, that the identity of the donor is not readily ascertainable because, for example: |
| 20 | (i) the key to decipher the code or link is destroyed before the research |
| 21 | begins; |

2

100080 ICOC Final Approval

| 1 | (ii) an agreement prohibits release of the key to the investigators under | |
|----|---|--|
| 2 | any circumstances; | |
| 3 | (iii) IRB-approved written policies and operating procedures for a | |
| 4 | repository or data management center prohibit releasing the key under any | |
| 5 | circumstances; or | |
| 6 | (iv) the release of the key to the investigators is forbidden by law. | |
| 7 | (b) In addition to the requirements of subdivision (a) of this chapter, the following | |
| 8 | requirements apply to the derivation and use of all covered stem cell lines. | |
| 9 | (1) Any covered stem cell line derived from any intact human embryo, any product of | |
| 10 | SCNT, parthenogenesis or androgenesis after 12 days in culture may not be used unless prior | |
| 11 | approval is obtained from the Independent Citizens Oversight Committee, constituted under | |
| 12 | Health & Safety Code, section 125290.15. Use of any covered stem cell line derived from any | |
| 13 | intact human embryo, any product of SCNT, parthenogenesis or androgenesis after 14 days or | |
| 14 | after the appearance of the primitive streak is prohibited. The 12-14 day limit does not include | |
| 15 | any time during which the cells have been frozen. | |
| 16 | (2) Any payments for the purchase of covered stem cell lines, somatic cells, or human | |
| 17 | tissue to persons other than the original donors shall be limited to those costs identified in Health | |
| 18 | & Safety Code, section 125290.35, subdivision (b)(5). Any payment for gametes and embryos, | |
| 19 | to persons other than the original donors, shall be limited to necessary and reasonable costs | |
| 20 | directly incurred as a result of providing materials for research, which include but are not limited | |
| 21 | to expenditures associated with processing, quality control, storage, or transportation. | |
