

Consideration of CIRM Interim Guidelines on Human Embryonic Stem Cell Research

The California Institute for Regenerative Medicine will be holding a public session to receive oral and written public comment on draft CIRM Guidelines for human embryonic stem cell research. These guidelines, based on the National Academy of Sciences' Guidelines for Human Embryonic Stem Cell Research, have been adapted in accordance with the California Stem Cell Research and Cures Act. The Independent Citizens' Oversight Committee, the governing body of the CIRM, is considering adopting these guidelines as its interim standards applicable to research funded by the California Institute for Regenerative Medicine. This public session is part of a preliminary drafting period during which the CIRM will consider modifications to the CIRM Interim Guidelines based on public comment received. The ICOC will adopt permanent standards pursuant to the California Administrative Procedure Act.

August 31st, 2005 Los Angeles Public Library 630 W. 5th Street Meeting Room A Los Angeles, CA 90071 10AM-2PM

If you are unable to attend this working session in person, please feel to send your written comments to Guidelines@cirm.ca.gov

The CIRM Guidelines are currently directly based on the National Academy of Sciences' Guidelines for Human Embryonic Stem Cell Research. To access the NAS Guidelines for review, please go to http://www.nap.edu/openbook/0309096537/html/. For a complete list of the NAS committee's recommendations, please go to: http://www.nap.edu/books/0309096537/html/123.html

The California Institute for Regenerative Medicine, its Independent Citizen's Oversight Committee, and its Working Groups, comply with the Americans with Disabilities Act (ADA) by ensuring that the meeting facilities are accessible to persons with disabilities, and providing that this notice and information given to the Members of the Committee is available to the public in appropriate alternative formats when requested. If you need further assistance, including disability-related modifications or accommodations, you may contact Kate Shreve at the California Institute for Regenerative Medicine at 510-450-2418 no later than the day prior to the meeting, or by Telecommunication Device for the Deaf (TDD) services at 916-324-6547.
