

Final Approval of Amendments to CIRM Medical and Ethical Standards

Agenda Item 20

Final Approval of Previously Approved Amendments to Sections 100060 & 100070

- ICOC authorized on 5/24/12 to initiate public comment; no comments were received.
- **100060:** Amendment provides greater flexibility for stem cell research oversight committee operations by striking restrictions on remuneration of non-scientist public member.
- **100070:** Amendment allows a designated institutional official or a stem cell research oversight committee to certify compliance with CIRM regulations for certain vitro experiments requiring IRB review and approval.

A designated institutional official is defined as a person *designated by the chancellor, chief executive officer or person with plenary authority.*
