### Special Call for COVID-19 Projects

The mission of California Institute for Regenerative Medicine (CIRM) is to accelerate stem cell treatments to patients with unmet medical needs. Given the growing surge of COVID-19 cases in California and throughout the world, CIRM is issuing this special announcement to support promising discovery, preclinical and clinical trial stage projects that could quickly advance treatments to COVID-19 patients in need. CIRM is utilizing its established partnering opportunities across Discovery (DISC2), Translational (TRAN1), and Clinical (CLIN1, CLIN2) stages to provide support for COVID-19 related projects.

Please refer to the following Program Announcement for more details:
