

Conference - Lung Regenerative Medicine Workshop

Objective

The objective of this request for application (RFA) is to solicit a highly qualified applicant to assist CIRM in the planning and execution of a workshop in the field of lung regenerative medicine. The goal of this workshop will be to bring together leaders in the field to discuss and identify the most promising indications and approaches for regenerative medicine in the lung. The workshop will also identify opportunities for CIRM to facilitate the advancement of the field of lung regenerative medicine, and will encourage collaborations and partnerships between academics and industry as well as between California and ex-California lung regenerative medicine researchers and clinicians.
