
Human oocyte development for genetic, pharmacological and reprogramming applications

Grant Award Details

Human oocyte development for genetic, pharmacological and reprogramming applications

Grant Type: Comprehensive Grant

Grant Number: RC1-00137

Project Objective: The goal of this grant was to pursue human oocyte development from hESC for genetic, pharmacological and reprogramming applications.

Investigator:

Name:	Renee Reijo Pera
Institution:	Stanford University
Type:	PI

Disease Focus: Fertility

Human Stem Cell Use: Embryonic Stem Cell

Cell Line Generation: SCNT

Award Value: \$2,298,411

Status: Closed
