

**Alexander Cheng - High School Stem Cell Research Intern - Summer 2013**

Visit our Through Their Lens page for photos and more videos from students and grantees.

Alexander Cheng is a Diamond Bar High School student who is doing a stem cell research internship this summer in the laboratory of Teresa Ku at the City of Hope. His internship is funded by California's Stem Cell Agency (CIRM) through the CIRM Creativity Awards grant.

This year, we decided to let the students tell their own stories about life in the lab and their hopes for the future. During the course of their internships, we've asked them to submit YouTube videos as well as Instagram photos and a blog about their experience.
