

Webinar: Injecting Neural Stem Cells into ALS Patients: Results of a Phase 1 Trial | Jonathan Glass

Title: Lumbar Intraspinal Injection of Neural Stem Cells in Patients with ALS: Results of a Phase I Trial in 12 Patients

Speaker: Jonathan D. Glass, M.D.

Professor, Neurology and Pathology, Emory University School of Medicine

Presented April 15, 2013

This presentation was part of the webinar event, "Clinical Trials: Moving Stem Cell based Therapies to the Clinic - Presentations from FDA and Leading Experts" hosted by CIRM and the Regenerative Medicine Consortium

The focus of this webinar is on the Lessons Learned from IND/Phase I trials including overcoming the challenges, and addressing the regulatory issues, as stem cell based therapies move towards the clinic.
