

**MEMORANDUM**

**Date:** November 2, 2010

**From:** Gil Sambrano, PhD  
Senior Review Officer

**To:** Independent Citizen's Oversight Committee

**Subject:** Budget Correction for Application RB2-01496

At its April meeting, the Board approved application RB2-01496 under the Basic Biology II RFA. The amount on the application was \$1,284,921.

During pre-funding review, staff noted that, because of a clerical error, the application was presented to the Board with an amount that understated the allowable facilities costs. To correct this error, staff requests that the award be increased by \$73,484, to \$1,358,405.
