Proposed Amendments to GWG Bylaws

October 27, 2022

CIRM
CALIFORNIA'S STEM CELL AGENCY

- The Grants Working Group (GWG) Bylaws outline the responsibilities, functions, and processes of the GWG.
- The GWG Bylaws are updated periodically to provide clarity and address changes in process or rules.

Primary Change:

- Addition of evaluation and scoring of application components addressing diversity, equity, and inclusion (DEI) by Patient Advocate Members of the GWG.

Additional Changes:

- Clarification of language related to the role of the CIRM scientific team in review to align with current process and policies
- Clarification of definition of “Vital Research Opportunity” by matching it to the Prop 14 language
- Minor edits to language for grammar or clarification.

CIRM requests the Board approve the proposed changes to the Grants Working Group Bylaws.
