Dear California Early Career Scientist,

As you may know, the ICOC, the Governing Board of the California Institute for Regenerative Medicine, has asked our staff to implement a program providing funding for Early Career Scientists among CIRM grantees to attend the 2011 World Stem Cell Summit, happening October 3-5 at the Pasadena Convention Center in Pasadena, California (www.worldstemcellsummit.com).

There is a total of up to \$1,000 available for CIRM-supported Early Career Scientists who attend the 2011 World Stem Cell Summit, including the registration fees and travel expenses. Registration for participants in this program is set at \$495, via our special arrangement with the Genetics Policy Institute, the organizers. A similar price is available for registrants via the World Stem Cell Summit web. Each CIRM stipend awardee will therefore have access to up to \$505 from CIRM to defray travel expenses for this trip, including hotel, airfare, needed ground transport and meals.

We are committed to processing applications for the CIRM stipend program and letting you know in advance of August 22nd whether or not we can fund your attendance of the World Stem Cell Summit, this year.
