

Alpha Stem Cell Clinics Network Expansion Award

INFR 4

Concept Proposal

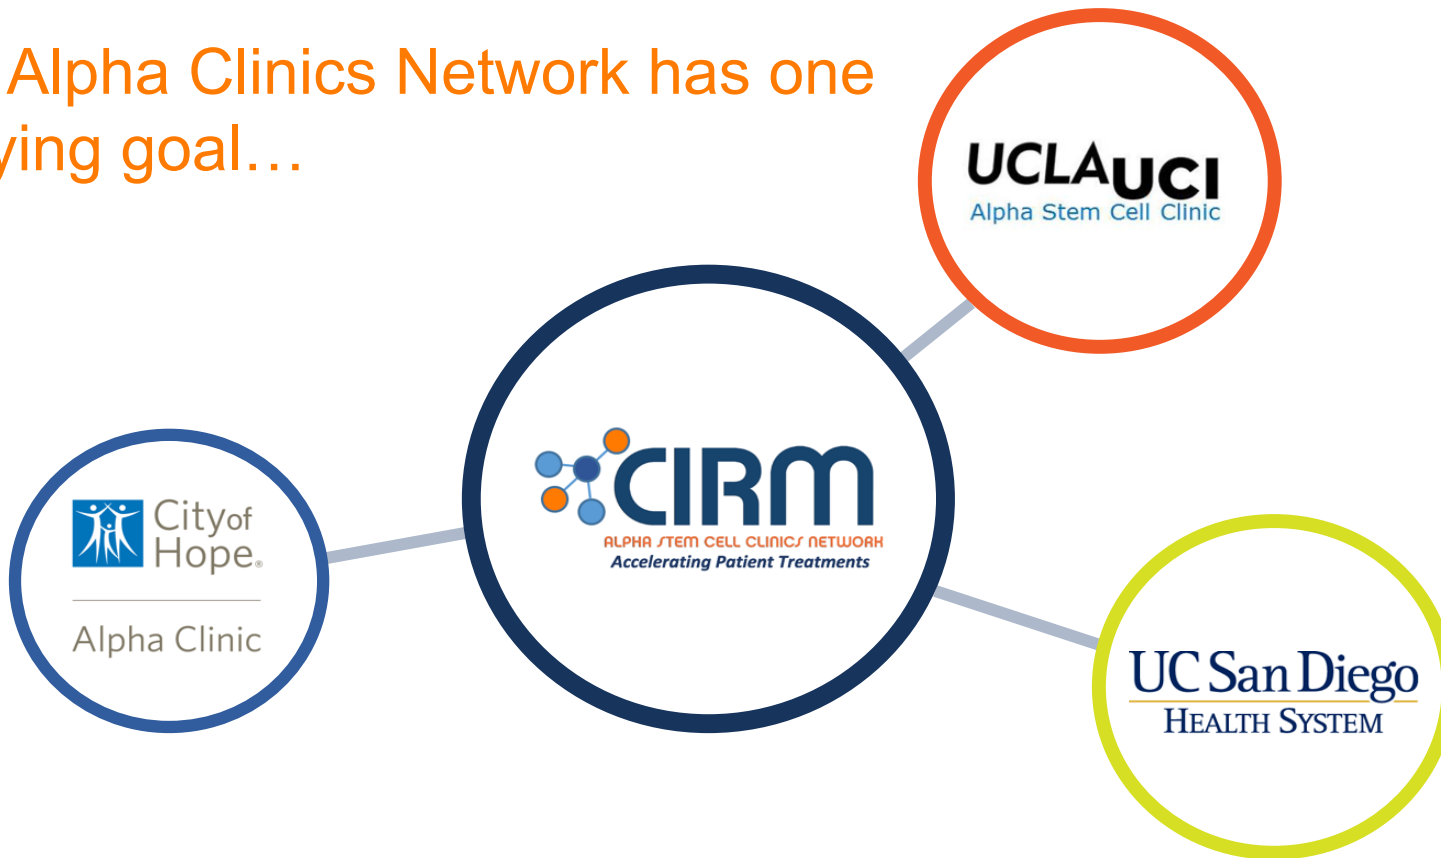

**Presentation to the Science Subcommittee
January 25, 2017**

Existing Alpha Clinics Network Sites

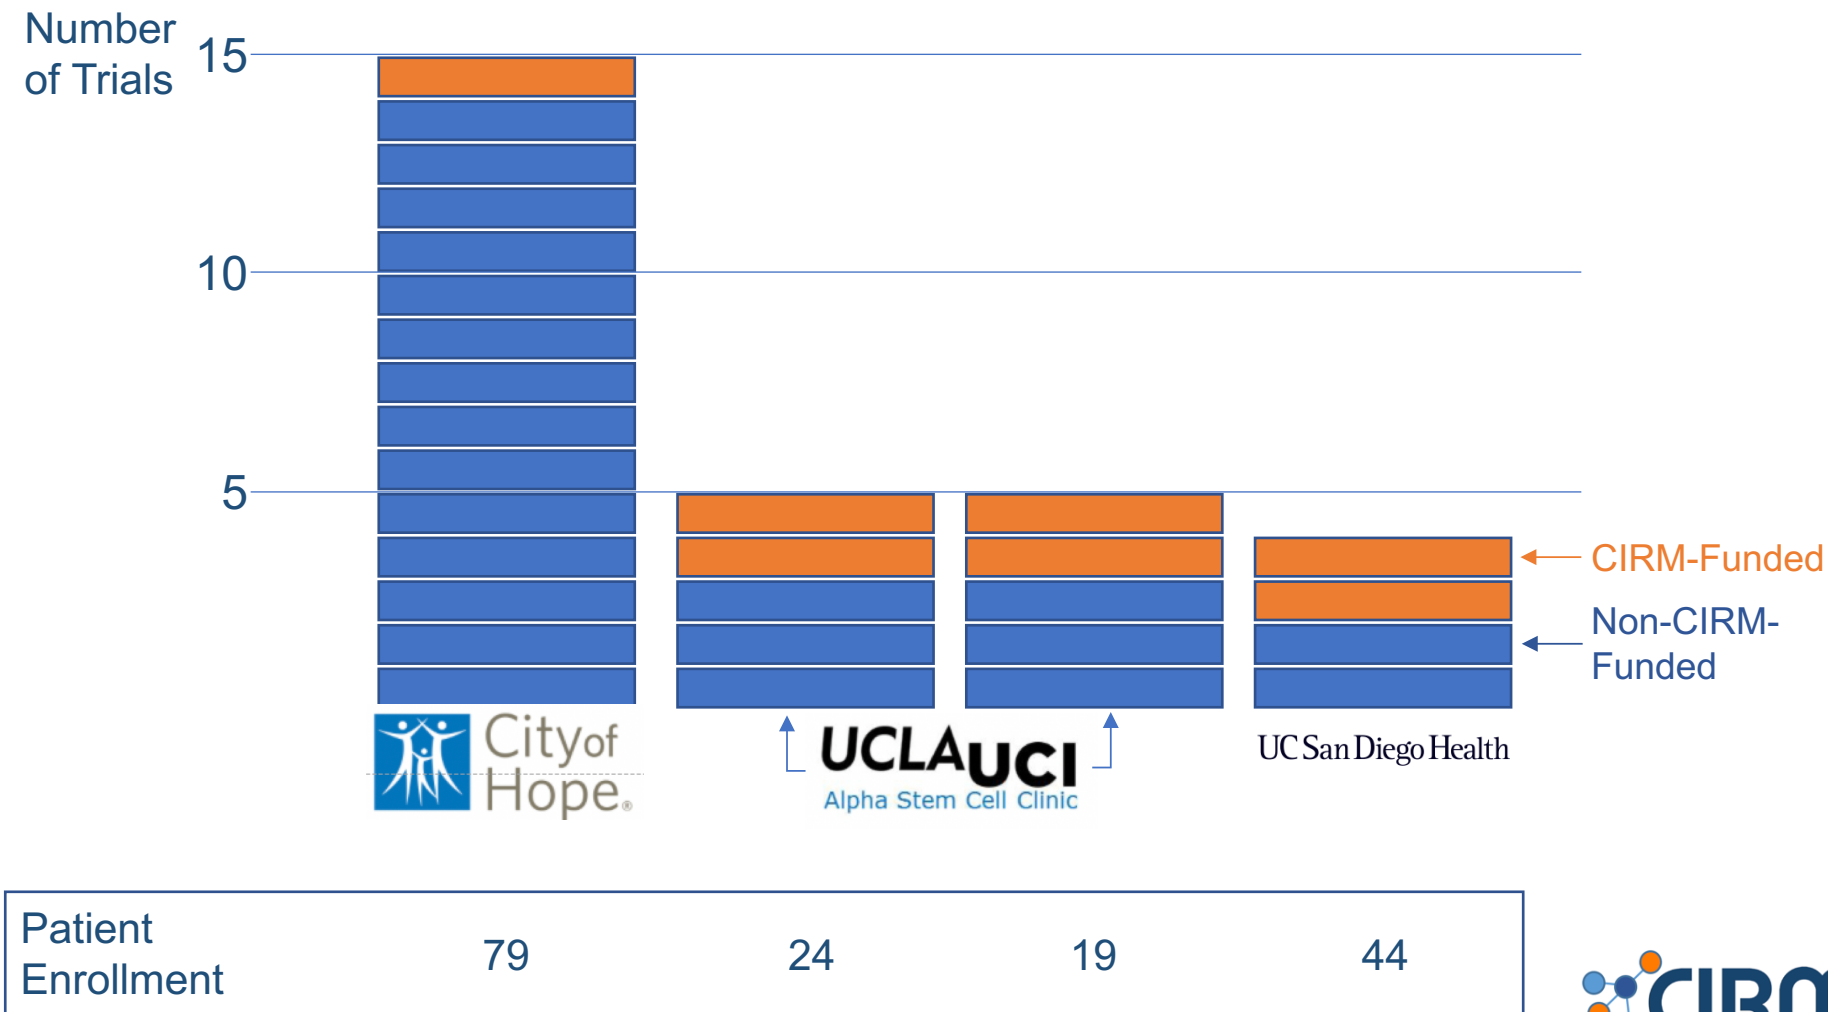

Existing Alpha Clinics Network Sites

The Alpha Clinics Network has one unifying goal...

...to accelerate the development and delivery of high quality stem cell clinical trials to patients

Robust Network Supporting 29 Active Clinical Trials

Alpha Stem Cell Clinics Network Expansion Award (INFRA 4)

The objective of the Network Expansion Award is to support additional Alpha Clinic sites that will:

1. Deliver core services necessary to conduct high-quality stem cell clinical trials
2. Support the training and career development of physicians seeking to perform clinical trials
3. Enhance the overall value of the network

Award Amount and Timeline

Two awards of up to \$8.0 million each in total funding over four years

Applications Due	2:00 PM PT, May 15, 2017
Grants Working Group (GWG) Review	June or July 2017
ICOC Review and Approval	August 2017
Award Start	Must start within 45 days of award approval

Expected Outcomes

The CIRM Alpha Clinics Network must:

1. Demonstrate continuous improvements in trial startup time, protocol optimization, and pipeline expansion
2. Integrate with other CIRM Infrastructure Programs (ASCC Network and Stem Cell Center)
3. Create a sustainable platform for ongoing delivery of stem cell treatments to patients
