6 “(a) DEFINITIONS.—In this section:

7 “(1) HUMAN CLONING.—The term ‘human  
8 cloning’ means human asexual reproduction, accom-  
9 plished by introducing nuclear material from one or  
10 more human somatic cells into a fertilized or  
11 unfertilized oocyte whose nuclear material has been  
12 removed or inactivated so as to produce a living or-  
13 ganism (at any stage of development) that is geneti-  
14 cally virtually identical to an existing or previously  
15 existing human organism.

16 “(2) ASEXUAL REPRODUCTION.—The term  
17 ‘asexual reproduction’ means reproduction not initi-  
18 ated by the union of oocyte and sperm.

19 “(3) SOMATIC CELL.—The term ‘somatic cell’  
20 means a diploid cell (having a complete set of chro-  
21 mosomes) obtained or derived from a living or de-  
22 ceased human body at any stage of development.

23 “(b) PROHIBITION.—It shall be unlawful for any per-  
24 son or entity, public or private, in or affecting interstate

1           “(1) to perform or attempt to perform human  
2           cloning;

3           “(2) to participate in an attempt to perform  
4           human cloning; or

5           “(3) to ship or receive for any purpose an em-  
6           bryo produced by human cloning or any product de-  
7           rived from such embryo.

8           “(c) IMPORTATION.—It shall be unlawful for any per-  
9           son or entity, public or private, knowingly to import for

23           restricts areas of scientific research not specifically prohib-  
24           ited by this section, including research in the use of nu-

10 technology concerning human cloning and somatic  
11 cell nuclear transfer, the need (if any) for somatic  
12 cell nuclear transfer to produce medical advances,  
13 current public attitudes and prevailing ethical views  
14 concerning the use of somatic cell nuclear transfer,
